In re Application of	:
Roschke et al.	: DECISION ON APPLICATION
Application No. 10/067,800	: FOR
Filed: 8 February, 2002	: PATENT TERM ADJUSTMENT
Atty. Dkt. No.	:
1488.11500011/EKS/HCC	:

This is a decision on the "REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT DETERMINATION UNDER 37 CFR 1.705(b)," filed 11 April, 2006, requesting that the Office reconsider the determination of Patent Term Adjustment (PTA) that accompanied the Notice of Allowance. Applicants request that the initial determination of patent term adjustment be corrected from five hundred three (503) days to five hundred thirty-one (531) days.

The application for patent term adjustment is **GRANTED**.

The Office has updated the PAIR screen to reflect that the correct Patent Term Adjustment (PTA) determination at the time of the mailing of the Notice of Allowance is five hundred thirty-one (531) days. A copy of the updated PAIR screen, showing the correct determination, is enclosed.

**BACKGROUND**

On 12 January, 2006, the Office mailed a Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. Applicants was advised that the patent term

adjustment to date was 503 days. The period of adjustment of 546 days was reduced by 43 days for applicant delay.

In response, applicants timely filed the instant request for reconsideration of the patent term adjustment along with payment of the fee set forth in 37 CFR 1.18(e). Applicants request that the patent term adjustment be corrected to 531 days. The basis for this correction is 37 CFR 1.702(a)(1). Applicants contend that the patent term should be adjusted because the application was filed 8 February, 2002, and the first notification received by the Applicant, an Office action mailed by the USPTO on 5 October, 2004, fourteen months and 546 days after the application filing date, was vacated as a result of Office error. Subsequently, the Office action mailed on 5 October, 2004, was vacated, and a new Office action mailed on 2 November, 2004, setting a new time period for reply, the new Office action having been mailed fourteen months and 574 days after the application filing date.

Applicants further state that the patent issuing from the application is not subject to a terminal disclaimer and that there were no circumstances in the prosecution of the application which constituted failure to engage in reasonable efforts to conclude processing or examination.

#### **RELEVANT STATUTES AND REGULATIONS**

35 U.S.C. 154(b)(1)(A)(i) provides that:

– Subject to the limitations under paragraph (2), if the issue of an original patent is delayed due to the failure of the Patent and Trademark Office to–

(i) provide at least one of the notifications under section 132 of this title or a notice of allowance under section 151 of this title not later than 14 months after–

(i) the date on which an application was filed under section 111(a) of this title; or

(II) the date on which an international application fulfilled the requirements of section 371 of this title;

37 CFR § 1.702 provides that:

(a) Failure to take certain actions within specified time frames . Subject to the provisions of 35 U.S.C. 154(b) and this subpart, the term of an original patent shall be adjusted if the issuance of the patent was delayed due to the failure of the Office to:

(1) Mail at least one of a notification under 35 U.S.C. 132 or a notice of allowance under 35 U.S.C. 151 not later than fourteen months after the date on which the application was filed under 35 U.S.C. 111(a) or fulfilled the requirements of 35 U.S.C. 371 in an international application;

37 CFR § 1.703 provides, in pertinent part, that:

(a) The period of adjustment under § 1.702(a) is the sum of the following periods:

(1) The number of days, if any, in the period beginning on the day after the date that is fourteen months after the date on which the application was filed under 35 U.S.C. 111(a) or fulfilled the requirements of 35 U.S.C. 371 and ending on the date of mailing of either an action under 35 U.S.C. 132, or a notice of allowance under 35 U.S.C. 151, whichever occurs first;

#### OPINION

Applicants' arguments and evidence have been considered, in light of the application history, and it has been determined that the initial period of adjustment pursuant to § 1.702(a)(1) should be adjusted because a review of the record reveals that the Office action mailed on 5 October, 2004, omitted page 1. Therefore, the Office action mailed on 5 October, 2004, was incomplete. As such, the Office did not mail a proper first notification under 132 on 5 October, 2004.

Thus, it is concluded that, in this instance, the remailing of the action under 35 U.S.C. 132 did constitute a delay by the Office in the issuance of the patent within the meaning of 35 U.S.C. 154(b).

In view thereof, applicants received a complete and proper restriction requirement on 2 November, 2004, rather than 5 October, 2004. As the Office action mailed on 2 November, 2004, was mailed fourteen months and 574 days after the filing of the application on 8 February, 2002, applicant's request for adjustment of the patent term by 28 days is granted.

In view thereof, the correct patent term adjustment at the time of mailing of the notice of allowance is five hundred thirty-one (531) days.

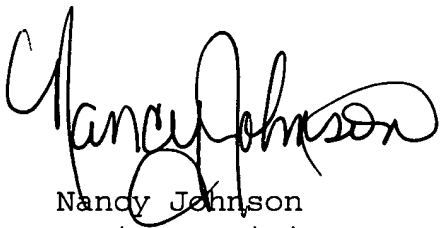

**CONCLUSION**

In view thereof, the petition is GRANTED.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fees are required.

The application file is being forwarded to the Office of Patent Publications for issuance of the patent.
